

ABG PAULAS IHS

international health service
medicine made in germany

ABG PAULAS IHS-Germany is specialized on medical treatment and care. We offer diagnostics and therapeutically treatment at the highest level throughout Germany in specialized medical centres and clinics.

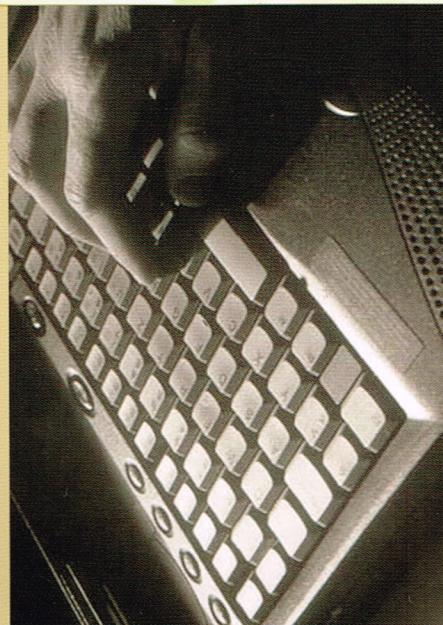

Upon receiving your medical report, our doctors and experts will find the best possible treatment facilities. This includes a preliminary and transparent estimate, all visa formalities in your country of residence, transport from your place of residence to the airport, pick-up service upon arrival in Germany and accompanied transport to hotel, apartment or treatment facility. All along we provide translation services.

We stay in contact after the treatment. We provide further medical consultancy and organize medical devices in case these are not available in your country of residence.

We provide translation services for doctors' visits. We manage the billing between patient and hospital and deal with all questions pertaining to insurance and liability issues.

Besides the best possible medical treatment, you will be able to stay in comfortable single bedrooms with around-the-clock translation service.

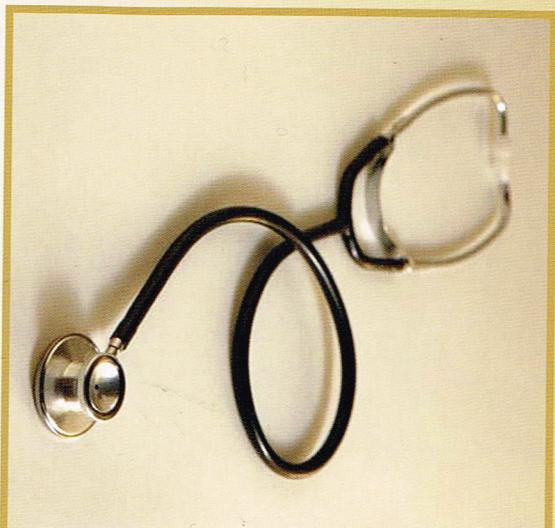

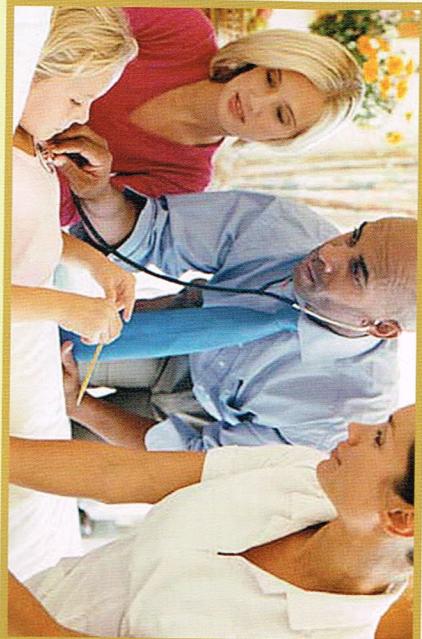

ABOUT US

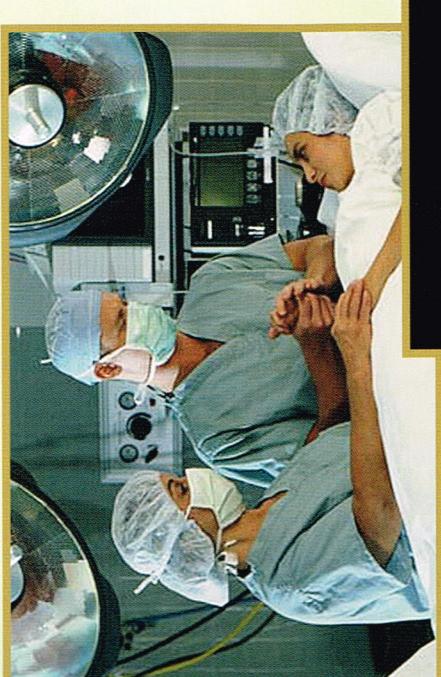

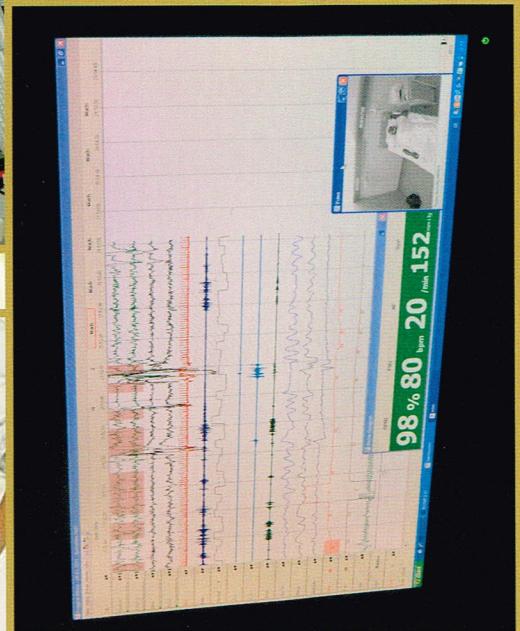

THE SERVICE OF ABG PAULAS IHS GERMANY

MEDICAL SERVICE

- Processing of all relevant medical reports
- Processing of all visa formalities
- Processing of all travel arrangements, including transport and residence
- Organisation of accommodation for all accompanying persons - Arrangement of appointments for doctor's visit
- Information and personal consultancy
- 24h availability
- VIP-full-service
- Looking after accompanying persons and arranging of exclusive shopping and sightseeing tours
- Processing of all questions pertaining to insurance and legal issues
- Translation service
- Support regarding questions and problems arising during the treatment
- Safety and liability of the financing of the treatment

In addition to the medical treatment as such, we take the entire organisation in our hands. We provide our entire service in the patient's mother tongue. Our focus is on an individual service. The availability of specialists, advanced equipment in the hospitals, uncompromising quality standards, an overall good infrastructure all lead to Germany's international reputation regarding medical treatment and care.

AMBULANT TREATMENT & OPERATIONS

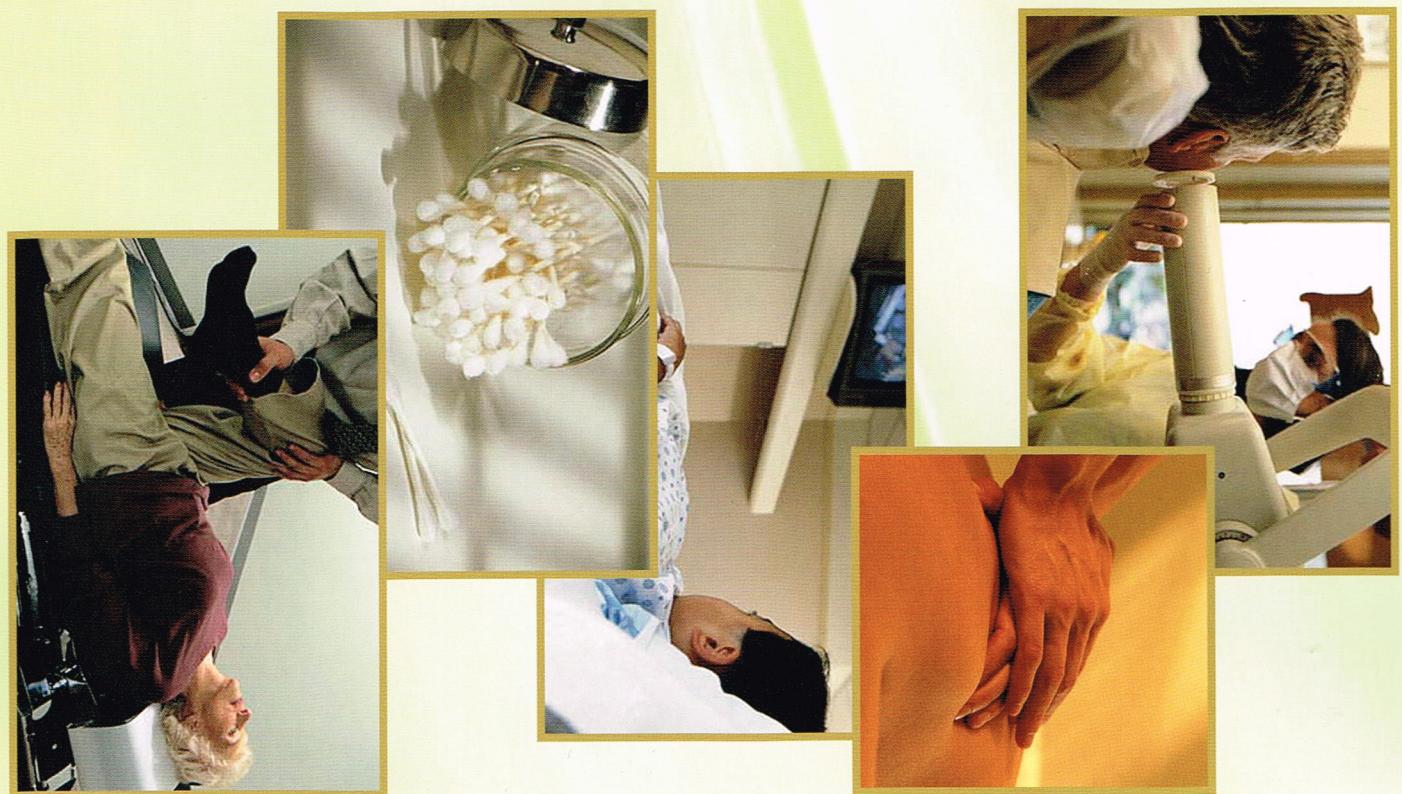

Ambulant Treatment A stationary treatment is not always necessary. After consultations with the doctors in charge, ambulant operations and rehabilitation programmes can be an alternative. Our staff will take care of the patient's transportation from the hotel to the medical or the rehabilitation facility. We will organise everything necessary to enable an ambulant treatment.

Ambulant Operations Ambulant operations are carried out according to the medical need. These can be minor surgical operations such as arthroscopic treatments, dental operations or plastic surgery.

STATIONARY TREATMENT

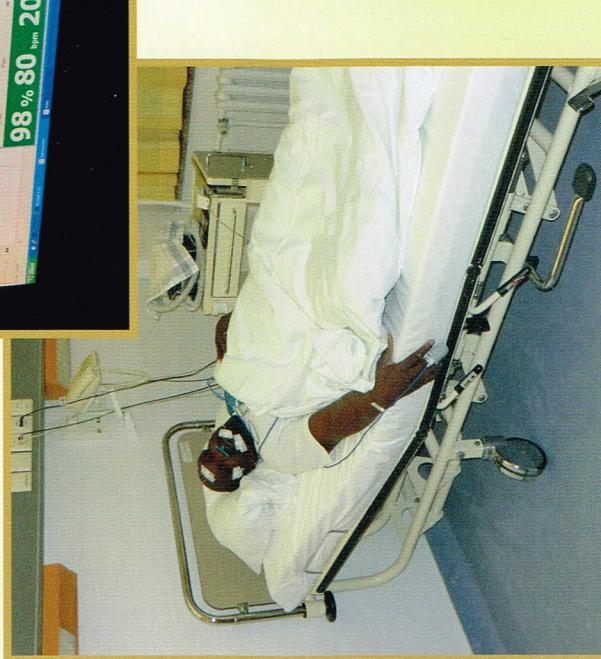

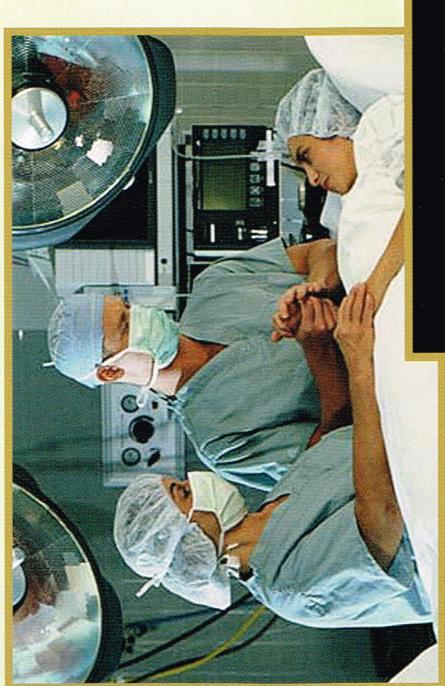

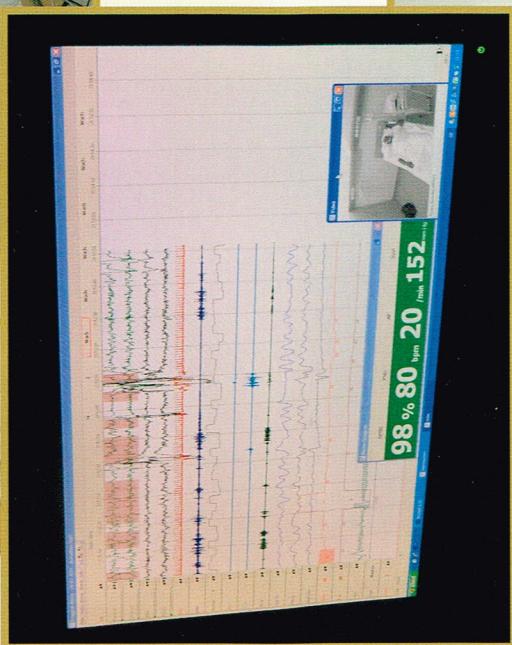

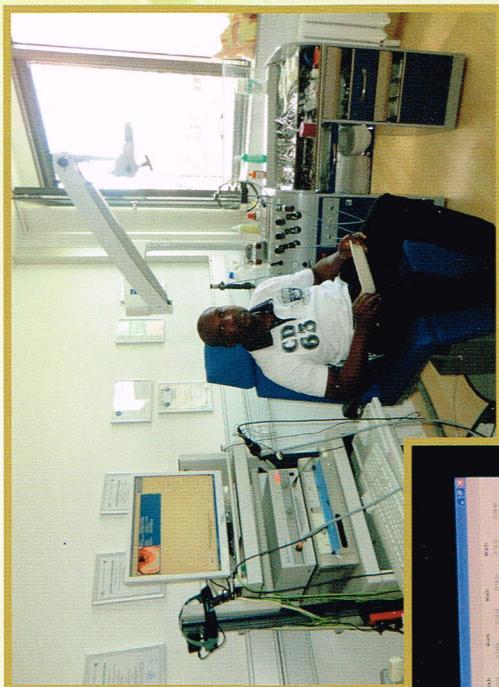

Our partner clinics have the most advanced medical standard. They are prepared to adapt to your demands. Patients are staying in single bedrooms with telephone and internet access as standard. Translation service is available 24 hours and the catering is prepared to adhere to the requirements of our patients.

SPECIALIZATIONS:

There is almost no disease which cannot be treated, as an inpatient or as an outpatient, within Germany. Please find below a list of medical specialisms:
